

REMARKS

Claims 21-41 are pending in the present application and have been allowed. Certain amendments have been made to the specification, claims and drawings as set forth in the following.

Specification and drawings

Certain typographical/grammatical errors in the specification have been corrected. Moreover, certain element numerals have been revised to better correspond the specification to the drawings. In addition, certain element numerals in the drawings (Fig. 14 element 162; Fig. 19 elements 263, 264) were duplicates and thus are amended to correct.

Claims

Claim 21: amended deleting "from" at line 12 and deleting "said collection lens" at line 13 of the claim.

Claims 30 and 34: each amended at line 3 adding the article "a".

Claim 39: amended at line 8, after "mirror" changing the period to a comma.

It is submitted that these corrections are evident from the context of the claims and as such should be entered as not affecting claim scope.

Conclusion

It is submitted that the above amendments to the specification, claims and drawing are supported by the application as originally filed, add no new matter, and require no undue examination and as such may be entered. The Commissioner is authorized to charge PSC Inc.'s deposit account no. 13-4953 for any fee required by the filing of this paper.

Respectfully submitted,
